THIS ELECTION IS OUR OPPORTUNITY TO MAKE FAMILIES LIVING WITH DRUG USE A POLITICAL PRIORITY

1. In Ireland today fewer people are voting. Voters make things happen. It is important to vote if you want change.
2. 6 out of 10 people elect our politicians-if you are not one of these it is important to register for future elections.
3. Areas of high voter turn out benefit and get more attention from politicians than areas of lower voter turn out.
4. People throughout the world have struggled to get the vote. Some people still do not have this right. In Ireland we should exercise our right to vote.
5. Everyone is equal on election day-we all have one vote. **Make your vote count.** (www.vote.ie)
